602 N. 20th St.
Omaha, Nebraska

DESIGNED FOR:

Physicians, Nurse Practitioners, Physician Assistants,
Pharmacists, Nurses, Public Health Officials,
Fellows, Residents, Students, and Other Interested
Health Care Professionals

JOINTLY PROVIDED BY:

Immunization Task Force Metro Omaha, Creighton
University Health Sciences Continuing Education,
Methodist Health System and Nebraska Department
of Health and Human Services

Purpose and Objectives

Purpose: To bring together individuals from Nebraska and surrounding states who are interested in promoting optimal immunization levels that will eliminate vaccine preventable diseases throughout the lifespan of all persons.

Objectives: *At the end of this program, the participants should be able to:*

- Discuss the clinical efficacy and effectiveness of the latest recommended vaccines for children and adolescents
- Identify, describe and assess the potential effectiveness of strategies and interventions to respond to issues of vaccine hesitancy
- Discuss recommended immunization schedules for adults, vaccination resources, and screening for contraindications and precautions to vaccination
- Explain the elements of a standing order, routinely recommended templates, and steps to implement standing orders for immunization in the primary care setting
- Discuss, network and view poster presentations of current and future recommendations for childhood and adult immunization
- Describe current clinical guidelines for vaccination during pregnancy and review evidence-based strategies for the implementation of maternal immunization recommendations
- Examine key issues, safety concerns and questions regarding vaccines in the United States
- Examine the prevalence and epidemiologic evidence in the role of the human papillomavirus (HPV) in head and neck cancers and review known clinical indications for HPV vaccination
- Discuss the benefits and importance of reporting to the Nebraska State Immunization Information System (NESIIS)
- Explain eligibility requirements for immunization programs managed by the Nebraska Department of Health and Human Services Immunization Program
- Describe the four components of AFIX (Assessment, Feedback, Incentives and eXchange), the quality improvement program developed to improve immunization service delivery
- Assess the benefits and advantages of using an educational game to highlight a variety of vaccine-related questions and answers to increase vaccination knowledge and improve communication technologies on immunization promotion
- Discuss evidence-based strategies for developing effective community-wide HPV vaccination rates
- Discover techniques of clinics that achieve higher vaccination rates
- Describe public health initiatives and strategic goals of Teen Immunization Education Service (TIES), a multi-disciplinary collaboration specific for Douglas County Health Department
- Identify educational interventions to improve adolescent vaccination
- Discuss interventions, challenges and outcomes of college student HPV vaccination

Kathryn L. White Memorial Seminar

KATHRYN L. WHITE
MT, RN, BSN

Before passing away on May 18, 2011, Ms. Kathy White was a member of the Immunization Task Force Metro Omaha and a Planning Committee member for the Immunize Nebraska conference. Sadly, on her way to a meeting of the Task Force, she became the victim of a fatal car crash outside of Lincoln, Nebraska.

As the Nebraska Hepatitis Program Coordinator, Ms. White provided viral hepatitis expertise within the Nebraska Department of Health & Human Services over a period of nine years. She acted as a liaison between the Centers for Disease Control and Prevention, and the State of Nebraska, ensuring that funding and programs reached the state as needed. Her duties included working with public health and medical professionals to promote education and prevention of viral hepatitis. Ms. White was the co-founder and a member of the Executive Council of the National Nurses Advisory Council for Hepatology.

Appointed to the Steering Committee of the Task Force, Ms. White became a champion for education and advocacy relating to vaccine-preventable diseases. She was the coordinator of the Speakers' Bureau of the Task Force. Passionate and energetic in everything that she did, Ms. White's legacy of education and advocacy relating to immunizations lives on through this conference.

Welcome from the Course Director

MEERA VARMAN
MD, FAAP

Eliminating vaccine preventable diseases in children, adolescents and adults takes the efforts of many. Public knowledge and acceptance of vaccination guidelines begins with health care professionals such as you who have chosen to make an impact on patient lives. The 2018 Immunize Nebraska Conference will provide health care professionals with the latest information on immunizations for children and adults as well as tools to increase vaccinations and public health partnerships.

Call for Abstracts

The Immunize Nebraska Conference Program Committee invites attendees to submit original abstracts to be considered for presentation as posters at the Immunize Nebraska Conference. The Program committee is seeking to complement a dynamic conference with topics related to education, health promotion or innovative research topics focusing on improving immunization rates among individuals and communities. Posters may have been presented at other conferences within the past year or planned conferences over the next year.

Abstracts will be peer reviewed for outstanding quality and timely content. Posters must be educational and must not promote any commercial product or service. The poster presenter(s) must be registered to attend the conference, with at least one presenter present.

Poster Abstracts are limited to 300 words and should include the following:

- Title
- Author Names with credentials - please star * presenting author(s) and mark # corresponding author
- Purpose and Objective
- Design/Methods (as appropriate)
- Findings
- Implications for Practice

Poster Abstracts should be submitted by the corresponding author (please ID in communication), with contact information (name, email, phone number) to Dr. Laura Klug, at LauraKlug@creighton.edu no later than 5 p.m. CT, **Monday, April 23, 2018**. Acceptance notification and guidelines for poster preparation will be returned via email by Monday, **May 7, 2018**. For this year's conference, we plan to display posters electronically for both onsite and telehealth viewing. Poster submission requirements will be described further in the acceptance guidelines.
